12 October 1964

STATOTHR
[redacted]
Itek Corporation
Lexington, Massachusetts

Dear [redacted] STATOTHR

The report entitled "Project 9043-Final Report" has been received and thoroughly reviewed.

In order to determine the accuracy and meaning of the graphs listed as "Figure #4 (a thru h)", it will be necessary to label each of the lines shown in these figures. In addition, there is a lack of neatness and clarity to all other figures in this report with the exception of Figure 9.

It is requested that the "Project 9043 Final Report" be revised to clarify the graphic presentation. After receipt of the revised report and validation of its contents, the contract can be brought to a conclusion.

STATOTHR [redacted] will visit Itek in the near future. If there are any questions concerning the report or its revision, he will be available to answer them.

Sincerely yours,

STATINTL
